Preface - Thomasville, N. C.

The history of Thomasville, which is situated in the heart of the Piedmont District of North Carolina, epitomizes the remarkable growth and development of that section during the past quarter of a century. The town was founded in 1852 by Senator John W. Thomas, whose house still stands in the center of the business district. Five years later it was incorporated, and shortly afterward the North Carolina Railroad was built. When the great main line of the Southern Railway was laid from Washington to Atlanta, the North Carolina Railway was leased as a part of the system; and so Thomasville is situated on the main line of this great double track, almost exactly half way between Washington and Atlanta and within easy access to New York and New Orleans, also on the High Point, Thomasville & Denton R. R., which connects with the Atlantic Coast Line R. R.

For the first half century of its existence Thomasville was the typical sleepy, unprogressive town of the unawakened South. The Civil War left it desolate and poverty-stricken, like most of the State, and at the close of the nineteenth century, it was a village of 750 people, with one small industrial plant, no public school and three small frame churches.

With the dawn of the twentieth century, the town awoke and made such rapid strides along every line that its development has been nothing less than amazing. Within the first decade of the century the population increased from 750 to 3,877, and in 1920 it had grown to 5,676. An unofficial census in 1927 showed a population of more than 10,000. The wealth of the Town has grown in proportion to the population. Thomasville's property valuation is $15,000,000, and its assessed valuation $7,528,000;

(CONTINUED ON PAGE TEN)

(CONTINUED FROM PAGE ONE)

while its gross debt, including all bonds, is $1,436,000 and the net debt $406,857.04.

Instead of the lone factory to be found in Thomasville thirty years ago, there are many and varied industries now. Thomasville is especially proud of her seven chair factories, which make chairs enough to furnish a new one each day to every man, woman and child in town. The town boasts of possessing the World's Biggest Chair—a monster seat, thirteen feet high, which was erected on the Town Commons as a symbol of the leading industry.

But although Thomasville is best known for manufacturing chairs, they are by no means the only thing made. There are two furniture plants, which manufacture bed-room and dining-room suites, two cotton mills, three knitting mills, a finishing plant, four veneer plants, a mattress factory, two panel factories, one box and shook factory, one packing pad factory, one excelsior plant, one concrete products plant, one roller mill, one machine shop, and an ice and bottling plant, with total payrolls of $70,000 per week.

In addition to being a busy place industrially, Thomasville is a pleasant and comfortable place in which to live. The town has a complete water and sewer system and thirteen miles of paved streets. The government is run smoothly and efficiently on the City Manager plan. There are Rotary and Civitan Clubs, a weekly newspaper, chapters of fraternal orders and an active Woman's Club. The public schools have an enrollment of 1,984 and are modern and well equipped. There are churches representing six denominations: Methodist, Baptist, Presbyterian, Heidelburg Reformed, Lutheran, Methodist Protestant, and Holiness. The Thomasville Shooting Club is an organization composed chiefly of northern capitalists who come down to hunt the game to be found upon the surrounding hillsides.

One fact of which the Town is proud is that within its borders is the best loved institution of one of the leading denominations of the State—The Thomasville Baptist Orphanage. This is the second largest orphanage in the South, and its personnel and life are closely connected with those of the Town.

The busy industrial life of Thomasville, its social and civic advantages, and its location on State Highway No. 10 and the main line of the Southern Railway in one of the most beautiful and healthful sections of the South, enable the Town to offer many inducements to the investor and the home-seeker.

By R. M. COOKSEY, City Manager.

Linked with Thomasville's Progress

FOR almost a quarter century the Thomasville Chair Company has been identified with the progress of Thomasville.

It has seen Thomasville grow from a straggling village to a live, up-to-date town. Thomasville in turn has seen the Thomasville Chair Company grew from one small factory to an imposing chain of modern plants.

Back of it all has been Character, both in trade-mark and ideals. It has been growth based upon an ever-increasing appreciation of the soundness of Thomasville's craftsmanship.

Let us all continue with the thought in mind that we have just started.

That's Progress.

Putting the Out-of-the-way Business on the Main Street For a Few Dollars

The business that is up-stairs in some building or off the beaten trail can overcome its location—can put itself on the Main Street of Public Attention by advertising in the City Directory.

Your advertisement entitles you to be listed in heavy type under all of the classifications of your business in the new City Directory now being compiled. This makes your business **STAND OUT.** Thousands of people consult this buyers' guide every year.

Thus, for a very small sum you can be located on

The Main Street of your City Catalog

for a whole year.

When you advertise in the directory you advertise your city as well.

This Directory is placed in libraries and with commercial organizations in various cities thruout the United States.

The City Directory is a complete index to your city and tells the story of its progress.

If your business is not listed as it should be, you are missing a golden opportunity, not only to increase your business but to promote the growth of your city as well.

The possibilities of the City Directory cannot be properly told in words.

HINTS FOR WISE MEN

Directory advertising and success of business are Siamese Twins.

$1.00 Bills for 50c would be a great bargain, but no more than Directory advertisements to progressive business men.

Know how to correctly spell a name before saying it is not in The Directory.

If you stood 1,000 men, who ought to buy your goods, in a row, you certainly would sell some of them. The City Directory puts them all in a ROW for you. Moral—advertise in your Directory.

Master minds of the Business World recognize advertising as the foundation stone upon which vast fortunes have been and still are being built. Your City Directory is one of the corner stones.
